The American Red Cross has served the Erie Community for 100 years and is solely funded by the generosity of our local donors. The premise of the Regatta is to raise funds that will support disaster relief to our neighbors in our community right here in Erie County. The Red Cross is the number one provider of disaster prevention, preparedness and response education and being prepared saves lives. It also provides emergency communication to our deployed military personnel and health and safety skills training.

The American Red Cross prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors.
