January 4, 2017

Dear Slip Holder,

At the start of the Basin Renovation Project of 2006, a committee of members was formed to develop standards for the new docks. This was to insure that our docks continue to have a uniform and clean look for years to come.

Some of you may already be aware of these standards but we will share them with you again and give you the opportunity to order a dock box if you so desirer.

The policies set fourth are as follows;

- Members may not make any modification to the docks.
- No carpet, hand rails or rub rail can be installed.
- Dock boxes are not mandatory, but if you want a dock box it must be purchased from the Club at our cost which will include installation. These Dock Boxes will be supplied at cost, plus tax, freight and \$50.00 installation fee.
- A member can have two dock boxes at their slip, one triangular and one rectangular.
- Used dock boxes may be purchased from members who no longer require a box. If you have a dock box from a member the Club will only charge you the installation fee.

You can choose from two models, either a triangular or a rectangular-shaped box. The triangular box, measures 39" on two sides and 54" along the back with a height of 29". The rectangular box measures 72" long x 26.5" deep x 27" high. You can view both types of boxes by looking at the ones installed on the other completed docks in the basin.

Model 700 Jumbo Dock Box	\$658.00	Irving 432 Triangle Dock Box	\$441.15
Sales Tax	\$39.48	Sales Tax	\$26.47
<u>Installation</u>	<u>\$50.00</u>	<u>Installation</u>	<u>\$50.00</u>
Total Cost	\$747.48	Total Cost	\$517.62

The triangle box will be installed at the corner of your dock and the main walkway over the water with a crossbar support. The Rectangle box will be installed in front of your slip.

The Due date for ordering a box is May 1st.
