ERIE YACHT CLUB • P.O. BOX 648 • ERIE, PA 16512

MAY/JUNE 2000

## Commodore's Report

PATRICK GEARY  
COMMODORE

The 2000 boating season is here and the Erie Yacht Club is alive with activity. Most of the projects that would have been an inconvenience to members have been completed during the off-season. If you have not been down to the Club for awhile you will notice new carpeting in the entranceway of the Club. Dock improvements have been completed and additional dry hydrants have been added for fire safety within our basin. The safety committee has been working on guidelines for the safety of all members.

Again, this summer the Club will have a host of social activities for all of us to enjoy. Rear Commodore Jim Lockwood and the EYC house management and staff really has an action packed summer for us. Jim has been working hard to make sure your visit to the EYC is an enjoyable one. The Sunset Happy Hours are back on Thursdays to help kick off your summer weekends.

On a serious note the water levels are truly a problem not just at the Erie Yacht Club but also throughout the Great Lakes. We have all read in newspapers and magazines about the situation with low water levels. The network news has also shown problems with the low water levels. As we work through this problem, the economic impact will hit many businesses. As an example the lake freighters who had a record amount of groundings last shipping season now are cutting the loads they are transporting to decrease their draft. This will cost in the millions of dollars. Many of the marinas and yacht clubs on our lake are either not opening at all this year because of lack of water or eliminating many of their docks. Your Bridge and board of directors have been proactive in dealing

with this problem.

We are limited to what we can actually do, but plans are in place if needed to rearrange docks and limited dredging has also been looked at as an option that we must closely study. Vice Commodore Dick Robertson has discussed our problems with other clubs at both ends of Lake Erie. He also hosted a meeting with the DEP at the Club to discuss and look at alternatives.

As your Commodore, I am asking for your patience and cooperation. We are a Club and therefore we must all work together whenever possible so all our fellow members can enjoy their boating pastime. As I have mentioned in my previous articles you may be asked to move this season to accommodate a fellow member. We have a best-fit policy here at the Erie Yacht Club and it has worked to our benefit over the years. The dock committee has a thankless job and a very complicated one this year. Dock master Bill Vogel continues to sound our basin on a regular basis and he is hopeful that we will be okay during the summer but is concerned as August and the late summer water levels start to recede. Please let's all work together to make sure the 2000 boating season is an enjoyable one for all of us.

Pat Geary  
Commodore

*"... we must all work together whenever possible so all our fellow members can enjoy their boating pastime..."*

*Bring Mom to spend a relaxing day by the bay*

**\$30.00**

Tax and tip not included.

Cocktails - 1900 hours  
Dinner - 1930 hours  
Entertainment - 2000 hours

## SEASONAL REMINDERS

- All members who have not filed a slip application for a dry sail boat must do so before bringing your boat on the property. Place your 2000 sticker on the boat and in clear sight. Any boat found on the property without the proper sticker will find their boat chained up. To avoid any inconveniences in the summer, take the time now to fill out the proper form for dry sailing.
- All disposable winter tarps are to be disposed of in the large roll off container located at the entrance of the Club. Do not throw your tarps in the dumpsters located behind the Galley. Remember to dispose of all materials in the appropriate dumpster. All recycles in the container marked recycles. The Club will be fined for any items found not in the appropriate container.
- For the convenience of all members please be on time and have the right amount of help required for launch.
- After launch, please police your winter-stored area and clean up all empty paint cans, tarps and maintenance materials. Place all blocking and shims on the pallets located in your area.
- No pets on the grounds without a leash. Keep your pet from barking at people walking on your dock. Observe the dog walking areas near the front gate. Please police your dog's deposits.
- Tie back all Halyards; this is very annoying for someone sleeping nearby.
- Keep your dock boxes back if they restrict the passage of emergency personnel.
- Children under 10 must wear a personal flotation device when on board or near the water. All children must be supervised when in the Clubhouse or near water.
- Don't fish off the catwalks when the boat owner is on board.
- No grills on the wing docks, D & E Dock, J & K Dock and M & N Dock.
- No bike riding, rollerblading, skateboarding on the wing docks.
- No swimming in the Club basin.
- No minors at the Bar.
- Keep all children under restraint in the Clubhouse. No running between tables, and hallways.
- Do not throw garbage over board in the Club Basin.
- Control your car speed on Club grounds. The speed limit on Club property is 15 miles per hour.
- No parking along the front of the building. This is a fire lane and reserved for emergency vehicles. Handicap spaces are marked in front of the carport.

## Sunset **Happy Hour** is Back!

*If poor weather,  
move to the Clubhouse Deck.*

You need to bring:

Salads: G-Dock

Main Dishes: I-Dock

Desserts: H-Dock

*Come on down and  
meet your neighbor!*

## Waste Disposal

This is a reminder to dispose of all your waste in the appropriate container. The recyclable containers are clearly marked and are located throughout the Club. For the benefit of all members and the well being of the Club, don't throw oil, fuel, tires, acid or any other non-desirable items in either the trash or re-cyclable containers. The Club is held responsible for items thrown into the waste containers and will be fined if these items are found in the containers. Also, the containers are here for the disposal of garbage from the Clubhouse and members boats. Do not bring your garbage from home down to be disposed of. Members seen throwing garbage from their vehicles and believed to be coming from some source other than their boat will be billed for that disposal.

Special  
People.

TENTH ANNUAL

## FROLIC ON THE BAY

**MONDAY, JULY 10, 2000**

**9:30 am to 2:00 pm at the Erie Yacht Club**

This year's popular charitable event will host over 200 clients of MECA/ United Cerebral Palsy, Muscular Dystrophy Association, Make-A-Wish Foundation, Achievement Center, Multiple Sclerosis Society, and Special Kids Net Network. Please plan to donate your boat and your time. The Erie Yacht Club will hold this event with the support of both the Commodore Perry Yacht Club and the Presque Isle Yacht Club.

**Children with life-threatening conditions can be treated to a special ride on your boat. Volunteers to assist the kids in boarding and departing the boats are also needed.**

**If you would like to donate or volunteer, call Jim Finn at 453-6966, or the Erie Yacht Club at 453-4931.**

As a convenience to our members, the Club has arranged to have a Live Bait vending machine installed at the Fuel Dock. The machine will be stocked with worms, grubs, and minnows depending on the season.

The machine keeps the bait refrigerated at a temperature of 40 to 45 degrees in recyclable containers. The bait has a life of up to 10 days in this environment. The vendor will continually monitor the machine. The machine will take quarters, one and five dollar bills. The sales this year will determine if the machine will return next season.

# 24-Hour Live Bait

# WELCOME

## New Members OF THE Erie Yacht Club

### JUNIOR FAMILY

Albert Starr • Kathleen Heard • Alex Nagle

Bring enough for  
8-10 people.

The Club will provide  
soda, coffee, plates,  
silverware, and beer.

**Come on down and meet your neighbor!**

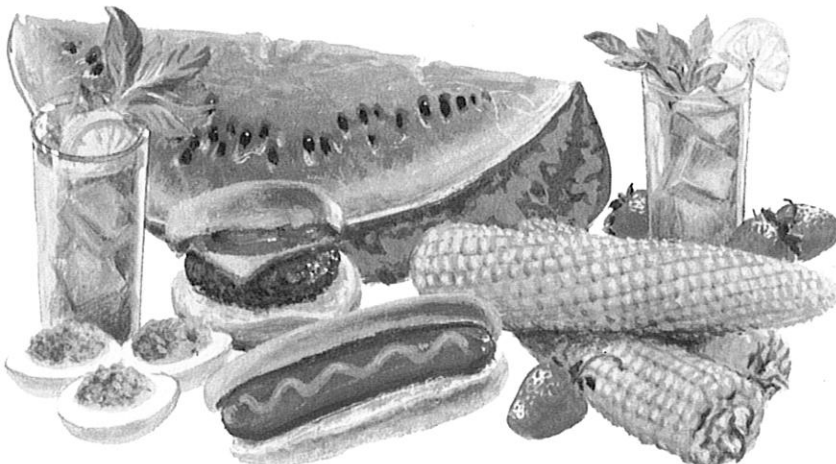

# "116 Days 'til Summer Party"

While it really is "almost summer," now you can tell from these photos everyone had a terrific time at the party late in February. A wonderful picnic buffet, continuous entertainment and "summer temperatures" set the tone for a super evening. If you missed it, don't fret . . . we are going to do it again in 2001!!!

– Dan Dundon and  
Gerry Urbaniak

# Rear Commodore's Report

JIM LOCKWOOD  
REAR COMMODORE

In a recent discussion with a Fish Commission officer, he mentioned that beginning this year the PA Fish Commission will begin enforcing a regulation that requires all boats operated in Pennsylvania to have a PA registration. This means that if your boat is documented it will also have to be registered. He indicated that this was a change and that the regulation has been in place, but they are just now going to start enforcing it. So, if you are documented and not registered I suggest you call the PA Fish Commission to verify this regulation and probably get your boat registered.

The "116 Days 'Til Summer Party" was a complete sell out, thanks again to Dan Dundon and his committee. The "Danny Justice Party" was also a sellout. At the time I am writing this we are 100% sold out on the "Motown Night".

The first of May we started the new menus, Bernie started running monthly specials, as well as weekly. Let us know what you think.

Well as Summer approaches I look forward to seeing more of you down at the Club. I hope all your experiences are food ones and we want to know about those, if however your experience is not a pleasant one let us know that too. You should be offered a comment card with your bill, take the time to fill it out and let us know how we are doing.

*"... beginning this year the PA Fish Commission will begin enforcing a regulation that requires all boats operated in Pennsylvania to have a PA registration."*

PETE TRAPHAGEN  
FLEET CAPTAIN

# Fleet Captain's Report

*Sojourner* is in and thankful for the 10" under her keel. While the water is projected to rise during the summer, this fall could see further reduction. From the Corps reports that I have seen over the years, man can only affect the level maybe 3". It all boils down to snow pack and precipitation in the Great Lakes Basin on the one hand, and the amount of evaporation on the other. The Board is studying the long-range implications and moving forward with application for permits for dredging and for possible reconfiguring of the basin.

The lift motor has been reconditioned and the lift has undergone the annual pre-season safety check. Bill reports that it is operating great. He and Mike arranged for a lift safety seminar to be held at the Club with participants from many of our area marinas and clubs, including the Port Authority. Bill also attended a very useful marina safety seminar in Florida and came back with many of the recommendations that have been made by our own committee, especially with respect to preventing the use of non-marine duty power cords.

Three of the four dry fire hydrants are in and will be ready for the season. They have been placed in non-parking areas so that access to them will always be available.

There will be facilities available in the Locker House/Maintenance Building area for disposing of oil filters and fuel filters – they should not

*"This launch season may be complicated by the low water, but we ask that you launch as early as possible to test your slip..."*

be left at the used oil tank. This launch season may be complicated by the low water. but we ask that you launch as early as possible to test your slip so that changes that have to be made can be done in an orderly way. Good boating!
